Re: Asbestos/Dioxin Monitoring Waiver

Dear: DAVID V HARPER

This letter is to advise you that monitoring waivers for Asbestos and Dioxin are being issued for your water system. These waivers will be in effect for a period of nine (9) years.

These waivers are granted based upon vulnerability assessments of your water system using information provided by you in a questionnaire and other information available to our office.

This letter is to be retained in your files to confirm that both an Asbestos and a Dioxin waiver have been granted for the nine-year compliance cycle of **January 01, 2020 through December 31, 2029**. The waivers will be reevaluated and may be renewed for subsequent nine-year compliance cycles.

If you have any questions on this matter you may contact Susan Corder or me at 661-2623.

Sincerely,

Teresa Lee, P.E.

Chief Technical Support Section
